Hi Kay,

My updates (all good news!) for Round Valley are:

1. DOT staff set out traffic counters on Main St. and 162 last week to capture traffic counts prior to the installation of the speed bumps. We're in touch with Julia and will go out and set out the counters again after the speed bumps have been installed.
2. The upcoming work I mentioned last meeting comes out of grant funds we were awarded through the Highway Safety Improvement Program (HSIP). This winter we will be working on design and environmental, then right of way. We are planning on constructing a sidewalk/pathway along Crawford Rd from Bigger Lane to Foothill Blvd. Depending on environmental and right of way, construction would be in the summer of 2024 or 2025.
3. The next call for projects for the Caltrans Active Transportation Program (ATP) will be next March with applications likely due in June 2024. We applied for the Round Valley Safe Routes to School project in the last cycle but were not successful. We will be applying again next year. We have received feedback from Caltrans on ways to improve our application plus we have a virtual site visit planned with the ATP team next March to further improve our application. We will also be receiving assistance from MCOG with writing the application.

I think that's everything from my end for now. I don't think I'll be able to make the meeting tomorrow, but feel free to share my updates and check in with me for future meetings.

Thanks,

Alicia Winokur

Hi, Alicia:

It's that time again -- our MAC meeting is on Wednesday and I was wondering if MDoT had any good (or bad) news for Round Valley that I can share at the meeting. Or, if you are into it, please zoom into the meeting.

We found the 2019 Feasibility Study for Howard, Foothill, etc. I think you mentioned some of the work in that report had been funded and would start sometime in the "near" future but I was not clear which part. If you can clarify that also, thanks!

Kay Richards

Hi Kay,

I'm glad that we were able to be on the call and answer people's questions...and also relay some good news on our efforts in Covelo. If you want to check in with me before your monthly next monthly meeting, I can give you any updates we might have.

Thanks,

Alicia Winokur

I wanted to thank both of you for coming to the meeting yesterday evening as well as your graciousness in responding to our questions and comments. I for one was happy to hear about the pending work on Crawford as well as the grant for Howard, even though that was not awarded. With all of our frustrations here, keeping up to date with the county's efforts to battle Round Valley's issues is something I would like to accomplish; and also to report out during the monthly MAC meetings. If you are able to, please let me know any information on transportation that I can relay to the RVA. One more thing to ask of you.....

Thanks again,

Kay Richards

Thanks! I will read your email -- all good news!
