MCOG is updating Regional Transportation & Active Transportation Plan

The Mendocino Council of Governments (MCOG) is updating the Mendocino County Regional Transportation Plan and Active Transportation Plan (RTP/ATP) and would like to hear from members of the community about transportation needs, deficiencies, and mobility barriers/challenges.

The RTP/ATP is a long-range planning document covering a 20-year time span, which includes short- and long-range transportation projects across all modes of transportation, including motorized, non-motorized, and public transit. It promotes a safe and efficient transportation system, and establishes regional goals that support mobility, economic, and health aims of the region. The 2026 Plan is due to be adopted by February, 2026.

Initial public outreach will be both virtual (through online survey and mapping tool) and in-person at community events. Please visit MCOG's website for upcoming event information and to take the online survey and access the interactive mapping tool:
