Hello Hazard Mitigation Core Planning Team,  
We are happy to share the updated Hazard Mitigation Plan (Base Plan) for CPT review and comment. Individual Annexes for those Planning Partners seeking FEMA approval will be shared with each local government in the next week.

Following the release of all Annexes, we will schedule a final CPT Virtual Workshop to present the plan and discuss the remaining steps.

Please email comments to me, else we are happy to discuss any with the CPT during the workshop.
